SECTION 1. IDENTIFICATION

| Product name Product code | : | Silicone Sealant Clear 3105-12 |
|------------------------------|------|---|
| Manufacturer or supplier's d | etai | ls |
| Company name of supplier | : | HI-TEC Industries |
| Address | : | 6100 S Fairfax Rd. Bloomington, IN 47401 |
| Telephone | : | (812) 824-8000 |
| Emergency telephone | : | AAPCC: 1(800)222-1222 |
| | | |

Recommended use of the chemical and restrictions on use

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification

Not a hazardous substance or mixture.

GHS Label element

Not a hazardous substance or mixture. Precautionary Statements : **Prevention:** P271 Use only outdoors or in a well-ventilated area.

Other hazards

None known.

SECTION 3. COMPOSITIONIINFORMATION ON INGREDIENTS

Substance / Mixture : Mixture

Chemical nature : Silicone elastomer

Hazardous ingredients

| Chemical Name | CAS-No. | Concentration (%) |
|--|------------|-------------------|
| Silicon dioxide | 7631-86-9 | >= 5 - < 10 |
| Distillates (petroleum), hydrotreated middle | 64742-46-7 | >= 5 - < 10 |
| Titanium dioxide | 13463-67-7 | >= 1 - < 5 |
| Aluminium | 7429-90-5 | >= 1 - < 5 |
| Carbon black | 1333-86-4 | >= 0.1 - < 1 |

| Version 1.0 | Revision Date: 02/25/2015 | MSDS Number: 1373684-00001 | Date of last issue: - Date of first issue: 02/25/2015 | | | |
|-------------------------|---|---|---|--|--|--|
| SECTION | N 4. FIRST AID MEASU | IRES | | | | |
| lf inł | naled | , - | : If inhaled, remove to fresh air. Get medical attention if symptoms occur. | | | |
| In case of skin contact | | | : Wash with water and soap as a precaution. Get medical attention if symptoms occur. | | | |
| In ca | se of eye contact : Flush eyes with water as a precaution. Get medical attention if irritation develops and persists | | | | | |
| lf sw | vallowed | : If swallowed, DO NOT induce vomiting. Get medical attention if symptoms occur. Rinse mouth thoroughly with water. | | | | |
| | t important symptoms effects, both acute and yed | : None known. | | | | |
| Prot | ection of first-aiders | : No special pred | cautions are necessary for first aid responders. | | | |
| Note | es to physician | : Treat symptomatically and supportively. | | | | |

SECTION 5. FIRE-FIGHTING MEASURES

| Suitable extinguishing media | : Water spray Alcohol-resistant foam Dry chemical Carbon dioxide (CO2) |
|--|---|
| Unsuitable extinguishing media | : None known. |
| Specific hazards during fire fighting | : Exposure to combustion products may be a hazard to health. |
| Hazardous combustion prod- ucts | : Carbon oxides Silicon oxides Formaldehyde Metal oxides |
| Specific extinguishing meth- ods | Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. Use water spray to cool unopened containers. Remove undamaged containers from fire area if it is safe to do so. Evacuate area. |
| Special protective equipment for fire-fighters | : Wear self-contained breathing apparatus for firefighting if nec- essary. Use personal protective equipment. |

| Version | Revision Date: | MSDS Number: | Date of last issue: - |
|---------|----------------|---------------|---------------------------------|
| 1.0 | 02/25/2015 | 1373684-00001 | Date of first issue: 02/25/2015 |

SECTION 6. ACCIDENTAL RELEASE MEASURES

| Personal precautions, protec- tive equipment and emer- gency procedures | : Follow safe handling advice and personal protective equip- ment recommendations. |
|---|---|
| Environmental precautions | : Discharge into the environment must be avoided. Prevent further leakage or spillage if safe to do so. Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained. |
| Methods and materials for containment and cleaning up | Soak up with inert absorbent material. For large spills, provide diking or other appropriate containment to keep material from spreading. If diked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absorbent. Local or national regulations may apply to releases and disposal of this material, as well as those materials and items employed in the cleanup of releases. You will need to determine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements. |

SECTION 7. HANDLING AND STORAGE

| Technical measures | : See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section. |
|-----------------------------|---|
| Local/Total ventilation | : Use only with adequate ventilation. |
| Advice on safe handling | : Handle in accordance with good industrial hygiene and safety practice. Take care to prevent spills, waste and minimize release to the environment. |
| Conditions for safe storage | : Keep in properly labeled containers. Store in accordance with the particular national regulations. |
| Materials to avoid | : Do not store with the following product types: Strong oxidizing agents |

SECTION 8. EXPOSURE CONTROLSIPERSONAL PROTECTION

cessing may form hazardous compounds (see section 10).

Ensure adequate ventilation, especially in confined areas. Minimize workplace exposure concentrations. Dust formation may be relevant in the processing of this product. In addition to substance-specific OELs, general limitations of concentrations of particulates in the air at workplaces have to be considered in workplace risk assessment. Relevant limits include: OSHA PEL for Particulates Not Otherwise Regulated of 15 mg/m3 - total dust, 5 mg/m3 - respirable fraction; and ACGIH TWA for Particles (insoluble or poorly soluble) Not Otherwise Specified of 3 mg/m3 - respirable particles, 10 mg/m3 - inhalable particles.

Personal protective equipment

Respiratory protection : General and local exhaust ventilation is recommended to maintain vapor exposures below recommended limits. Where concentrations are above recommended limits or are

| | Molecu | lar weight | : | No data available | |

SECTION 10. STABILITY AND REACTIVITY

| Reactivity | | Not classified as a reactivity hazard. |
|---|---|---|
| Chemical stability | | Stable under normal conditions. |
| Possibility of hazardous reac- tions | : | Use at elevated temperatures may form highly hazardous compounds. Can react with strong oxidizing agents. Acetic acid is formed upon contact with water or humid air. When heated to temperatures above 150 ℃ (300 F) i n the presence of air, trace quantities of formaldehyde may be re- leased. Adequate ventilation is required. See OSHA formaldehyde standard, 29 CFR 1910.1048 Hazardous decomposition products will be formed at elevated temperatures. |
| Conditions to avoid | : | None known. |
| Incompatible materials | : | Oxidizing agents |

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
